University Roll No.: 1250258215

Submitted to: Miss Monica

Charts are renderings of the computed RetailPulse results (Power BI visual types named on each caption).

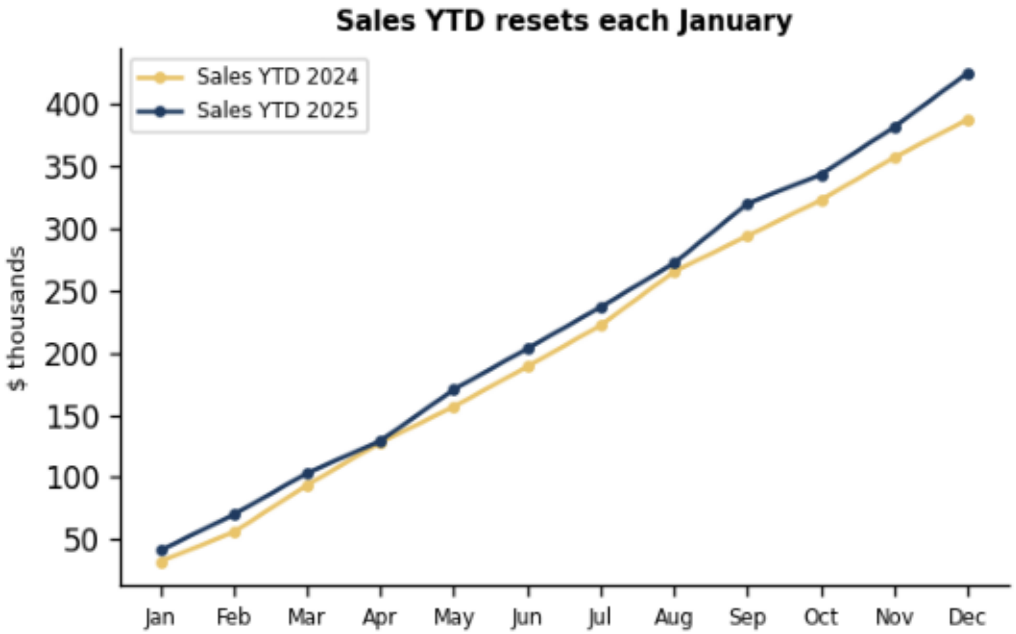

Report Graphs: Dashboard (Practical 8)

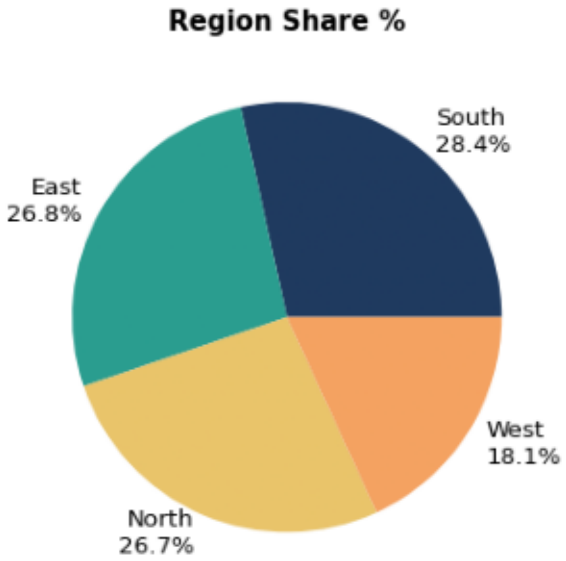

Report Graphs: Data Model (Practical 8) and Sales YTD / Region Share (Practical 9)

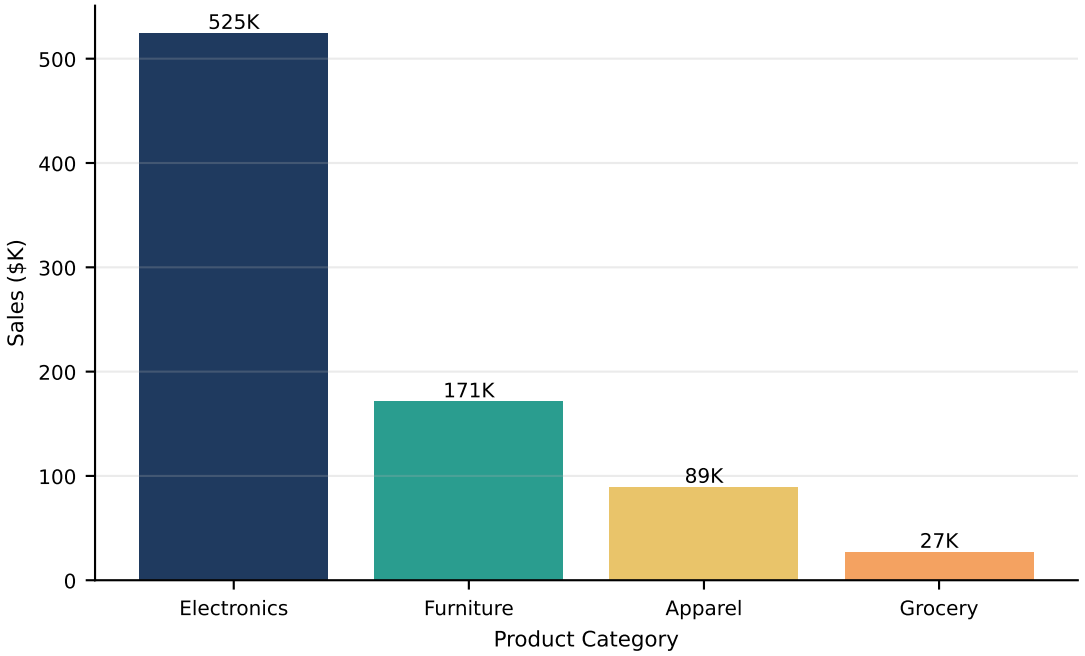

Both relationships: one-to-many, single direction (dimension filters fact)

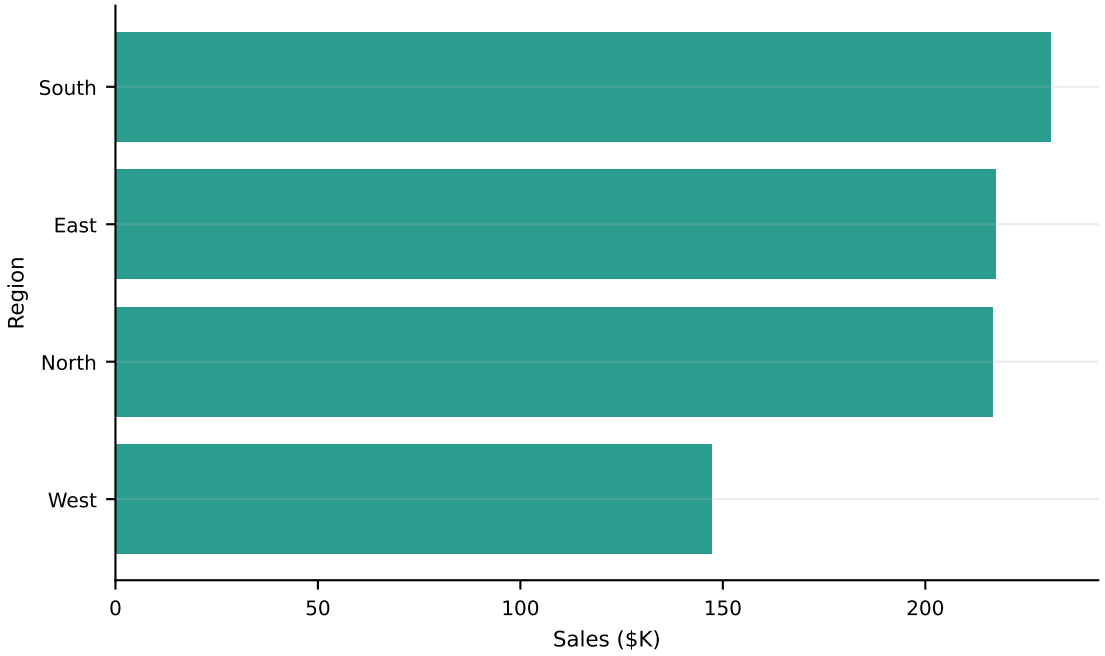

All Graphs - Page 1

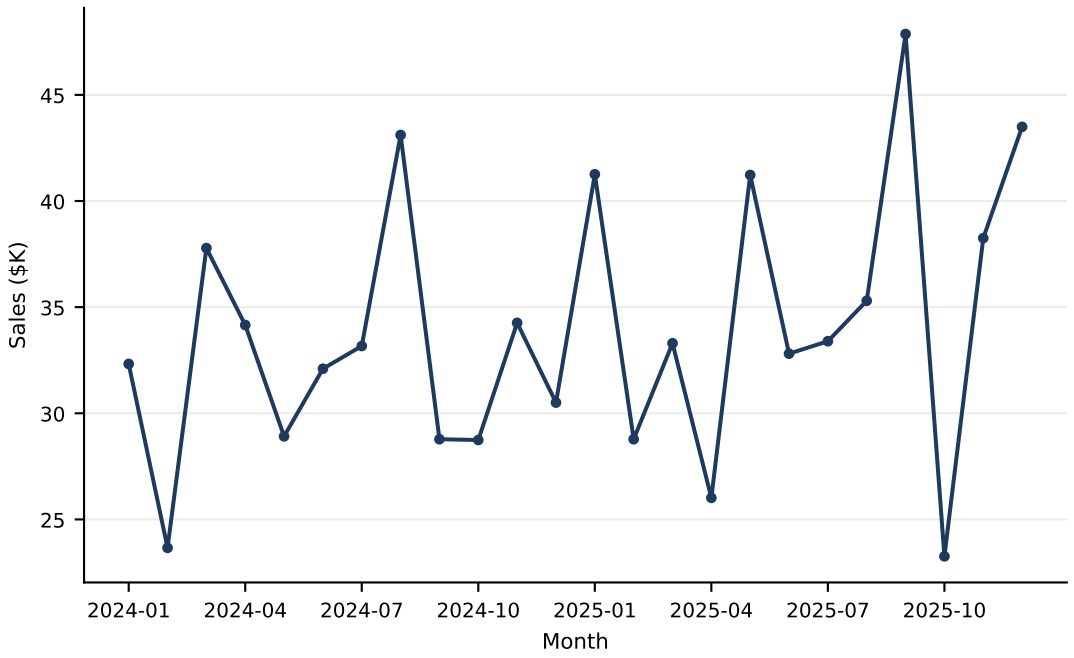

Total Sales by Product Category

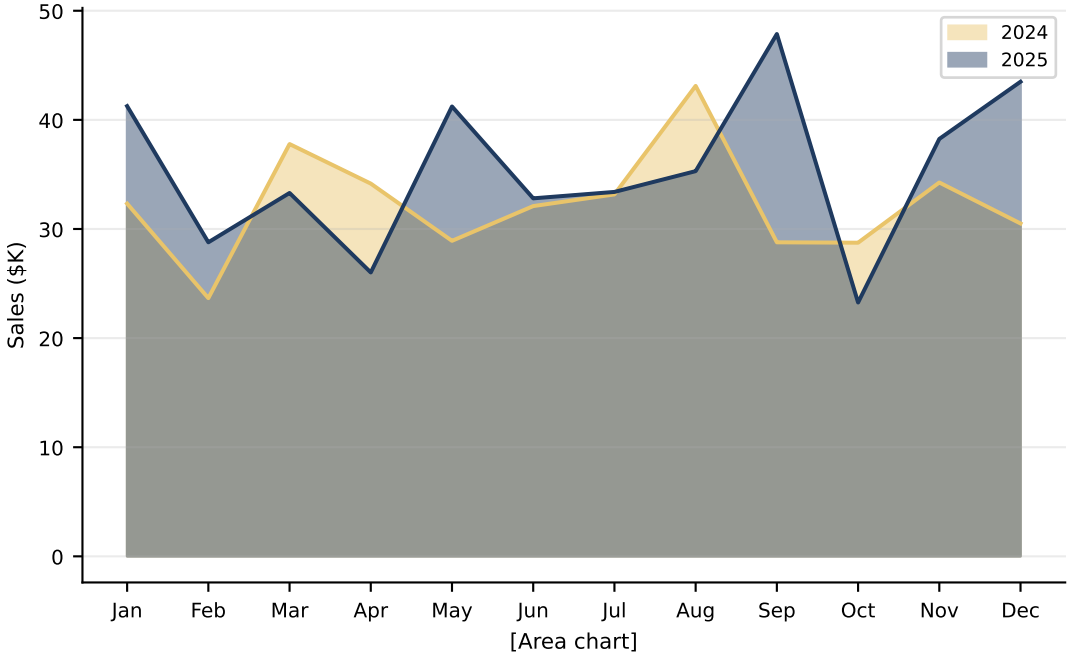

Total Sales by Region

Total Sales by Month

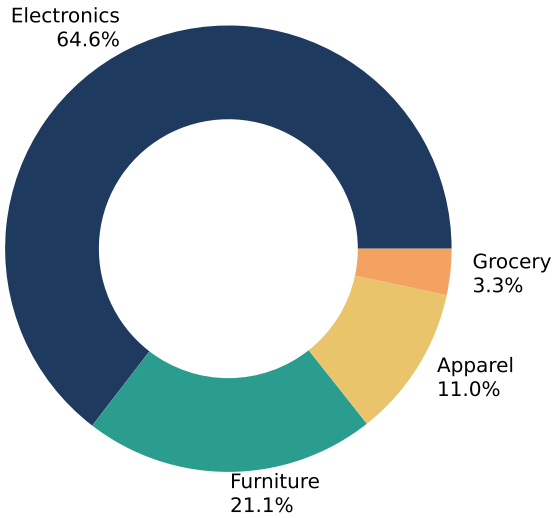

Sales by Month: 2024 vs 2025

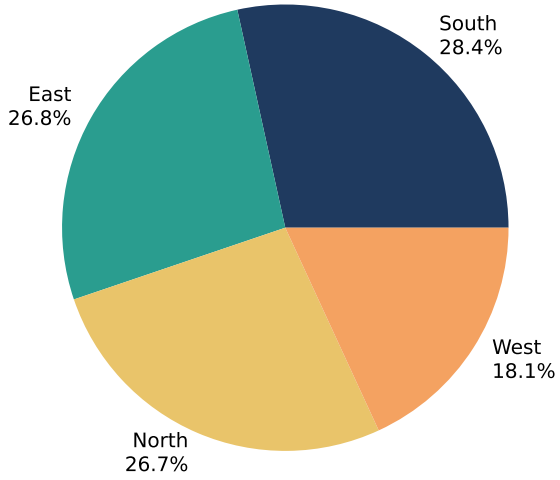

All Graphs - Page 2

Sales Share by Category

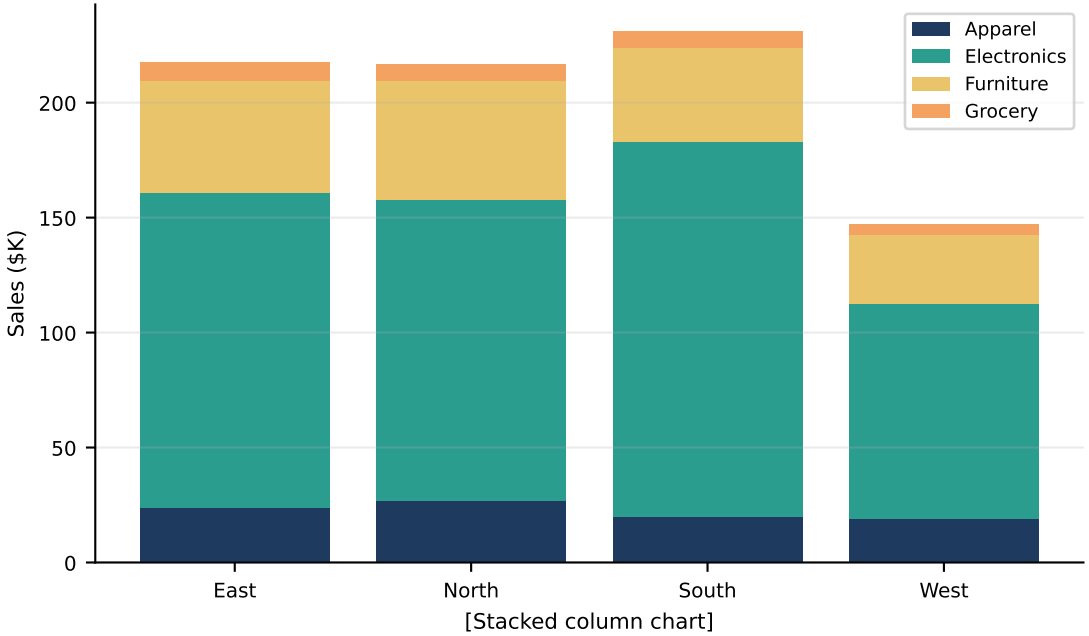

[Donut chart]

Sales Share by Region

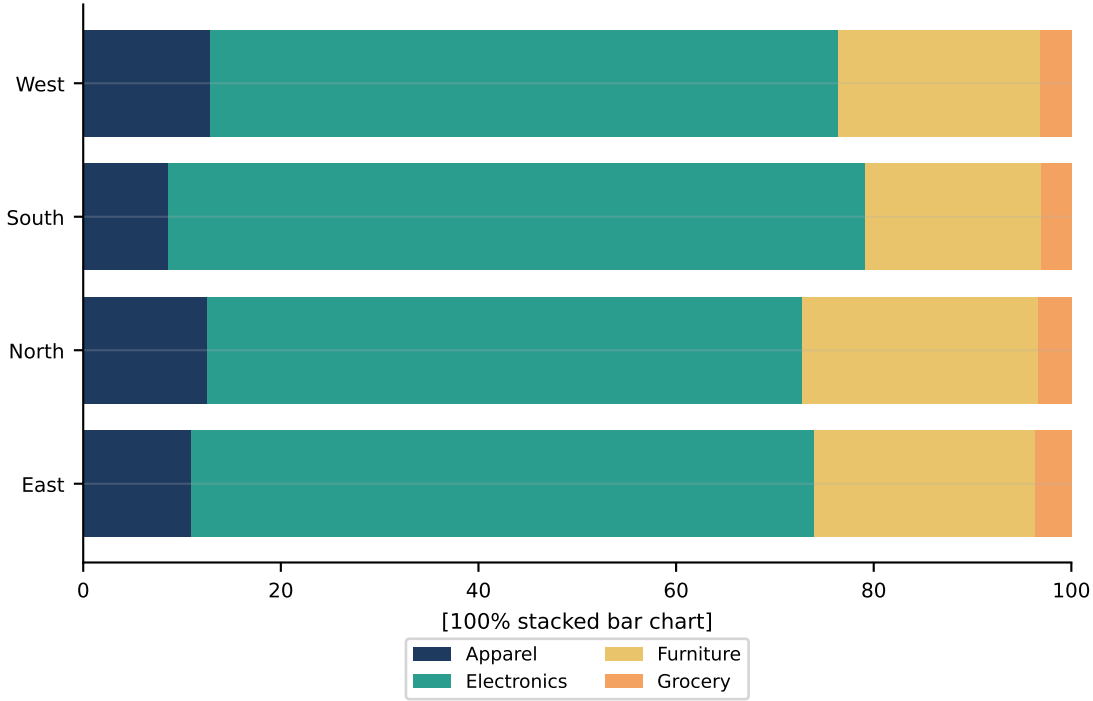

[Pie chart]

Sales by Region, stacked by Category

[Stacked column chart]

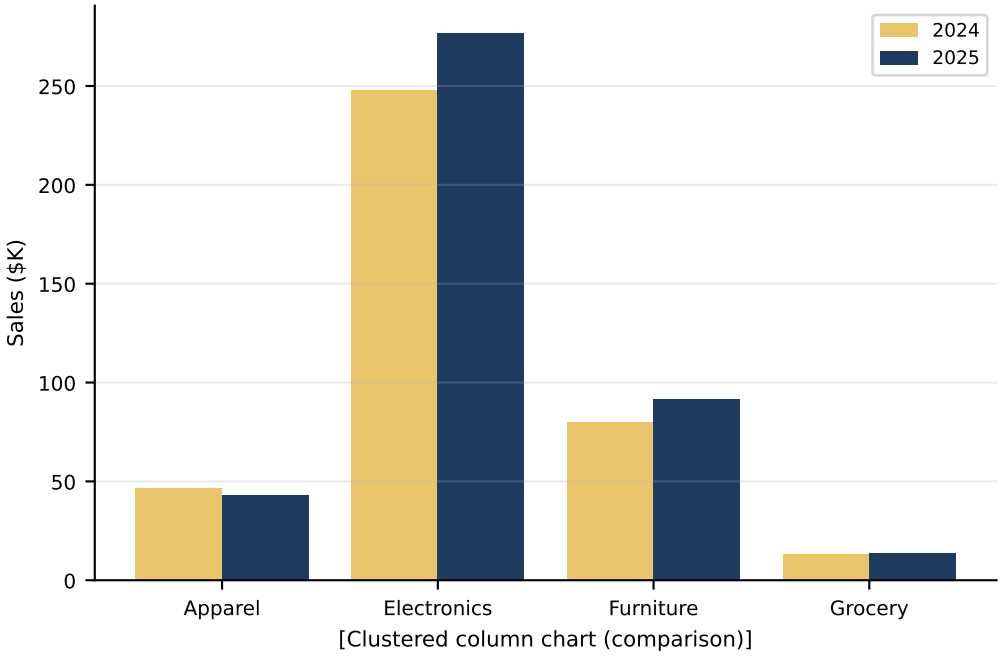

Category Mix within each Region (%)

[100% stacked bar chart]

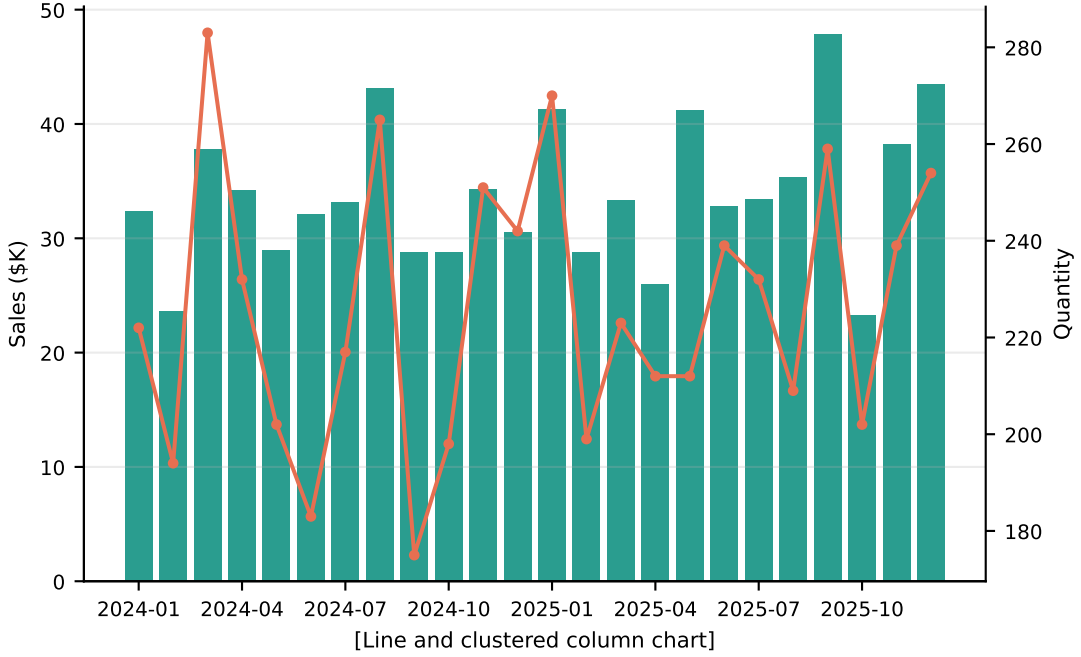

All Graphs - Page 3

Sales by Category: 2024 vs 2025

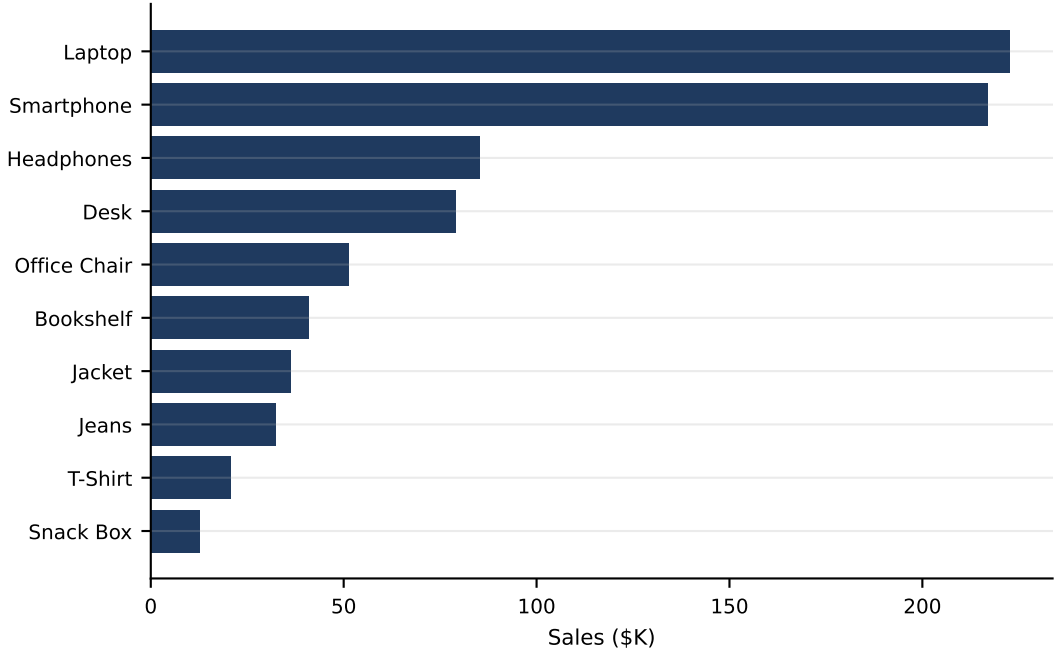

[Clustered column chart (comparison)]

Monthly Sales (columns) and Quantity (line)

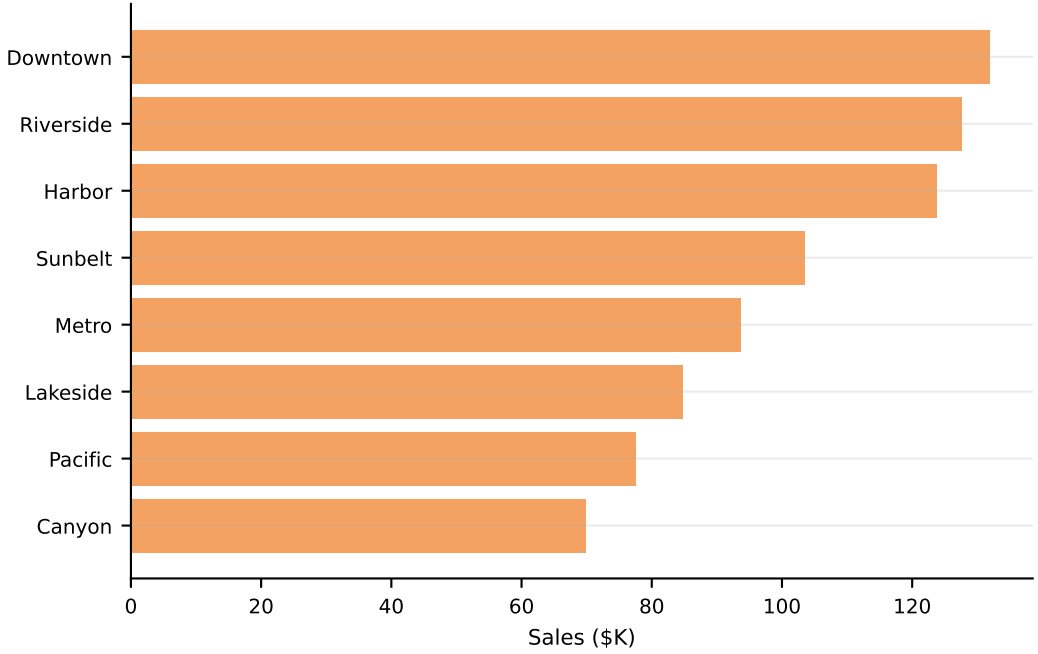

[Line and clustered column chart]

Top 10 Products by Sales

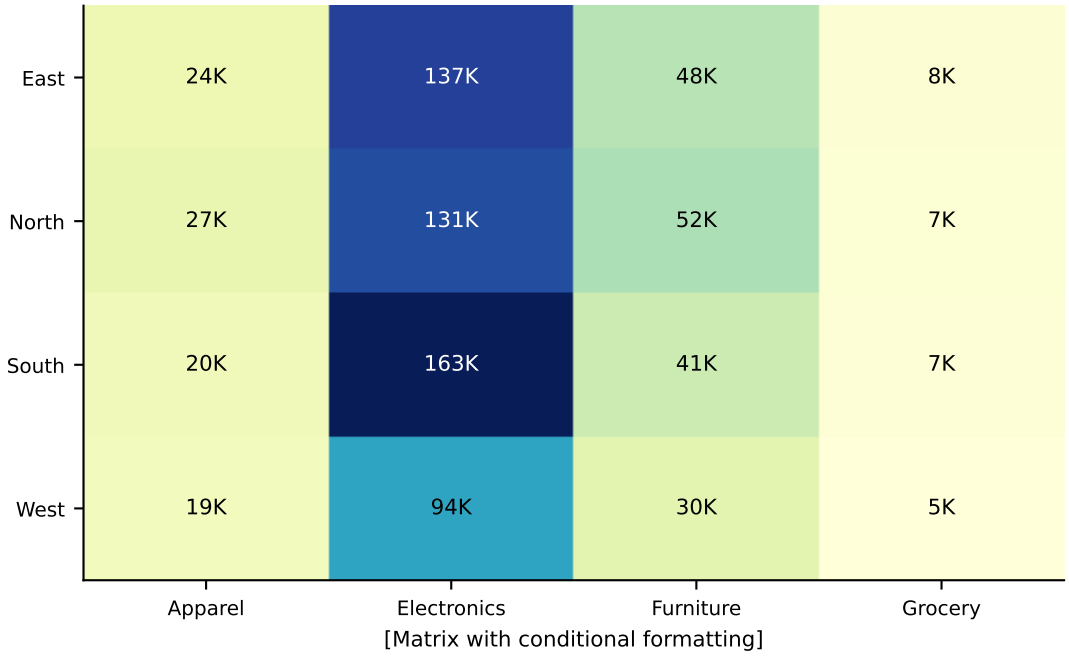

Sales by Store

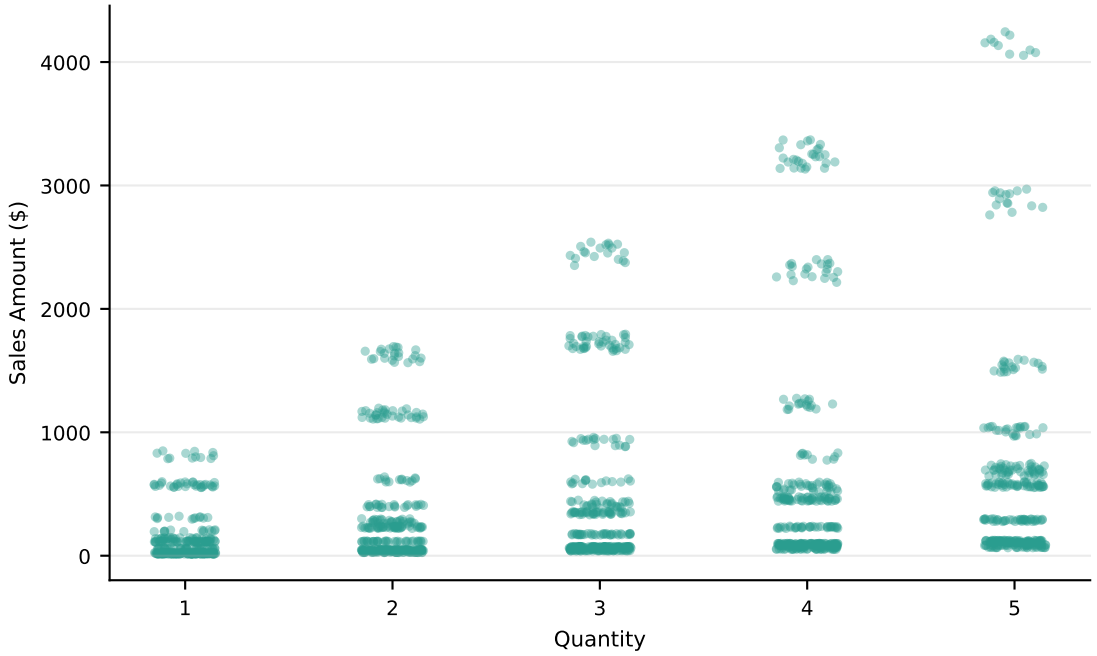

All Graphs - Page 4

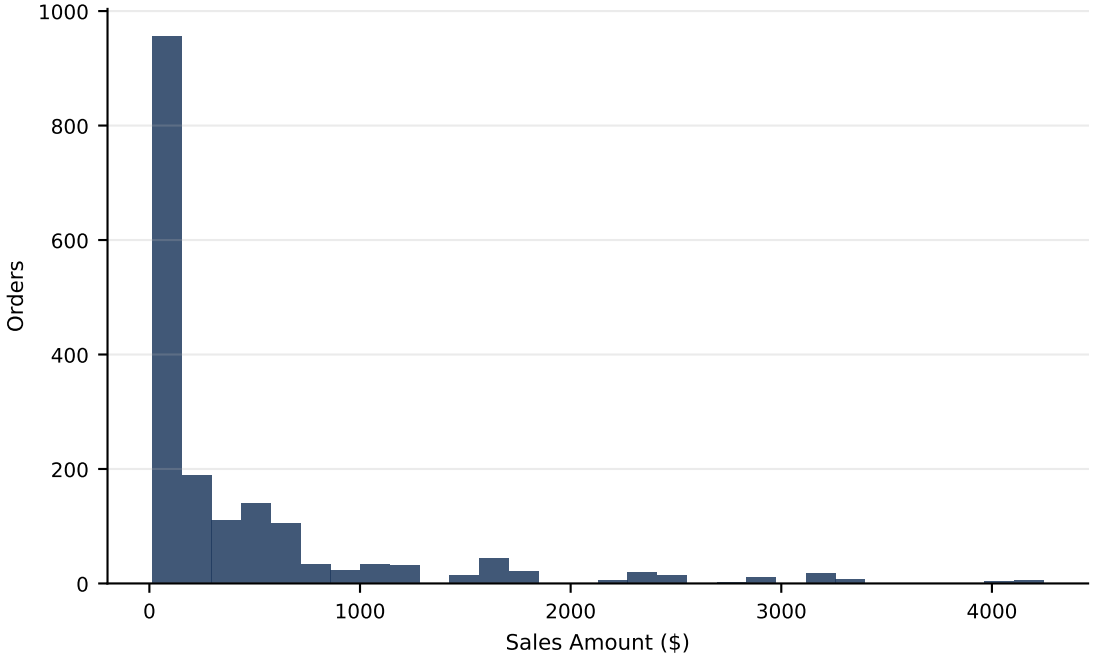

Sales Heatmap: Region x Category

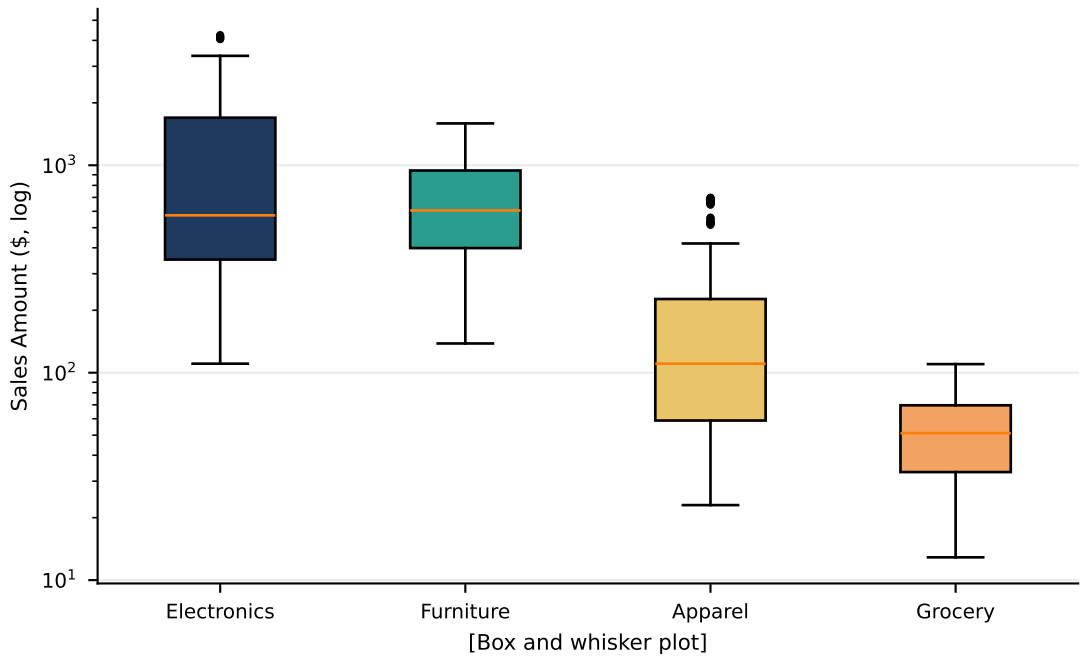

Quantity vs Sales Amount

Distribution of Order Amounts

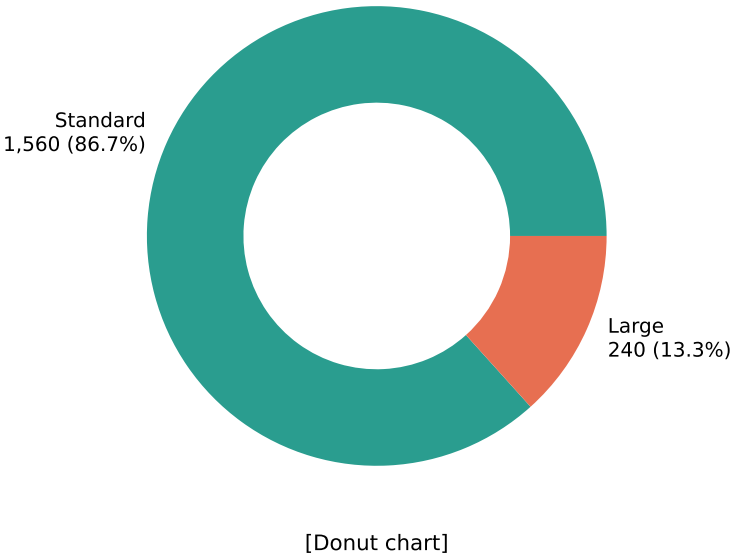

Order Amount Spread by Category

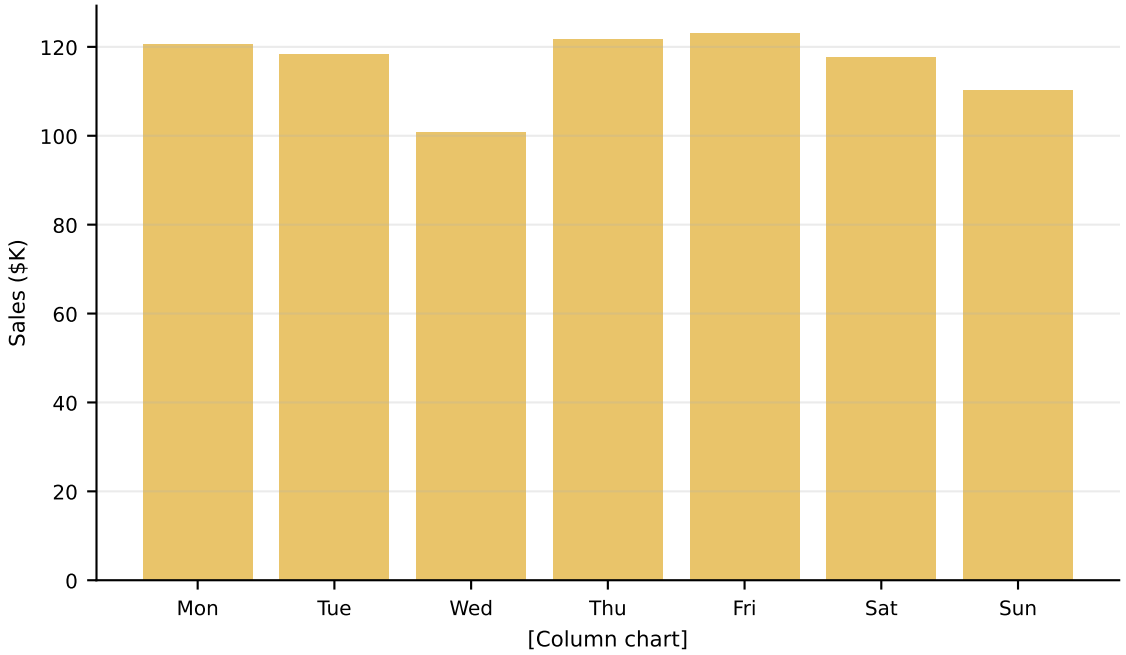

All Graphs - Page 5

Large vs Standard Sales (Sale Size)

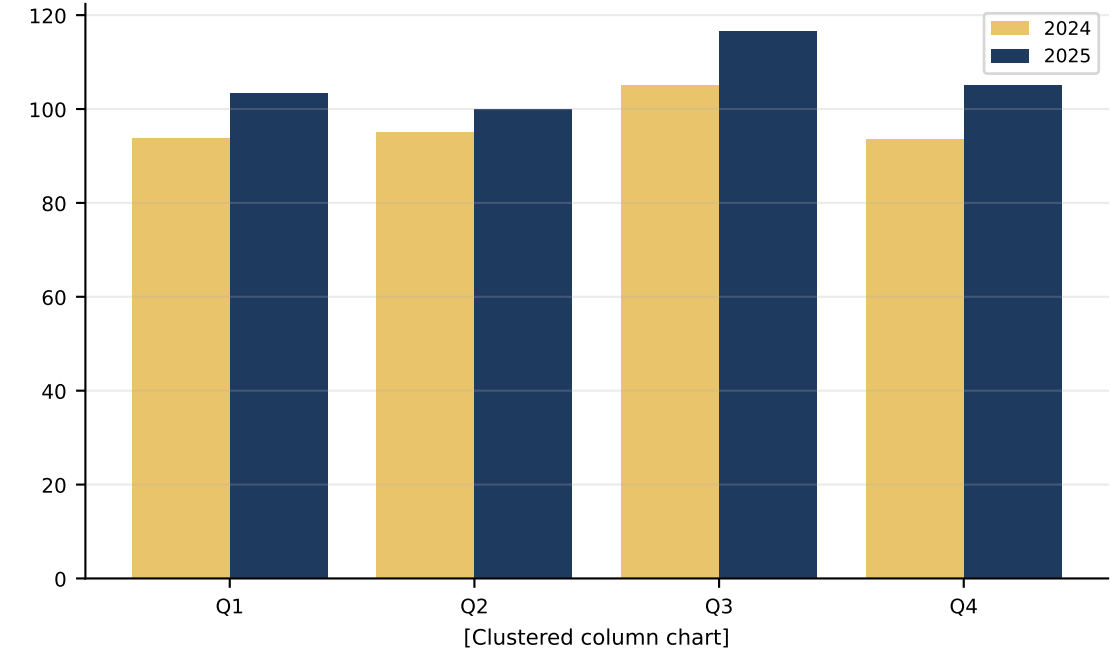

[Donut chart]

Total Sales by Day of Week

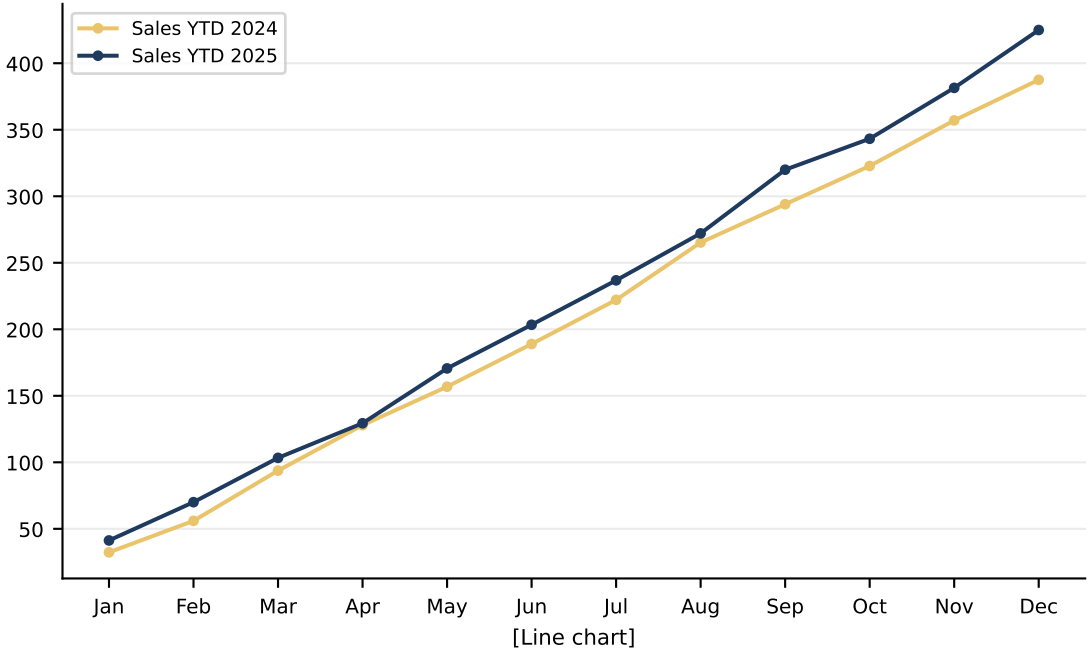

[Column chart]

Sales by Quarter

[Clustered column chart]

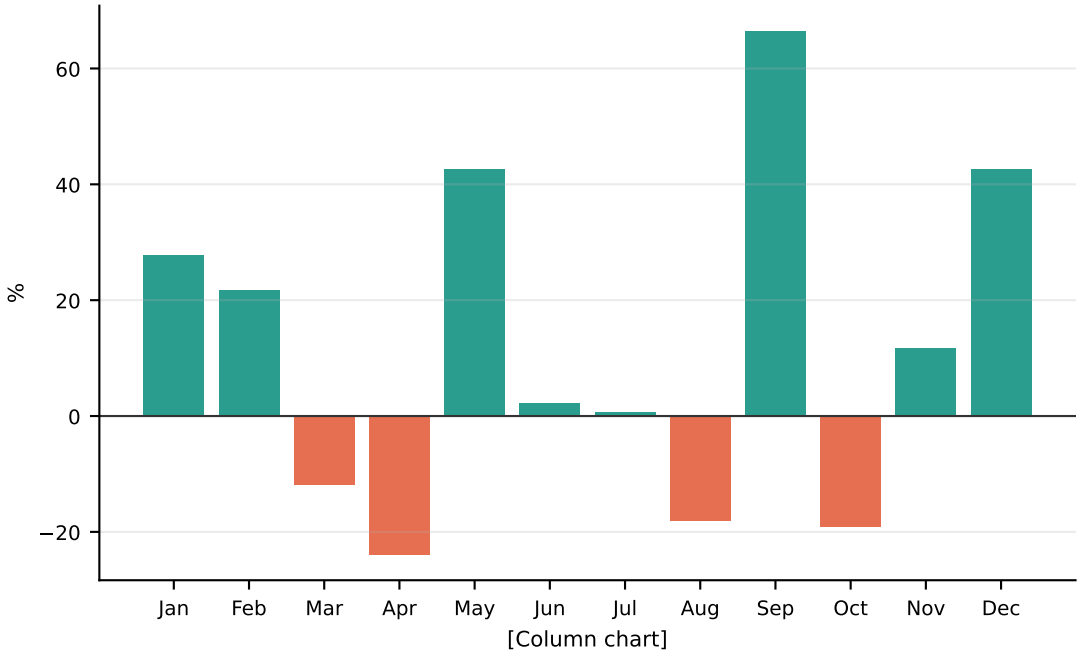

Sales YTD (resets each January)

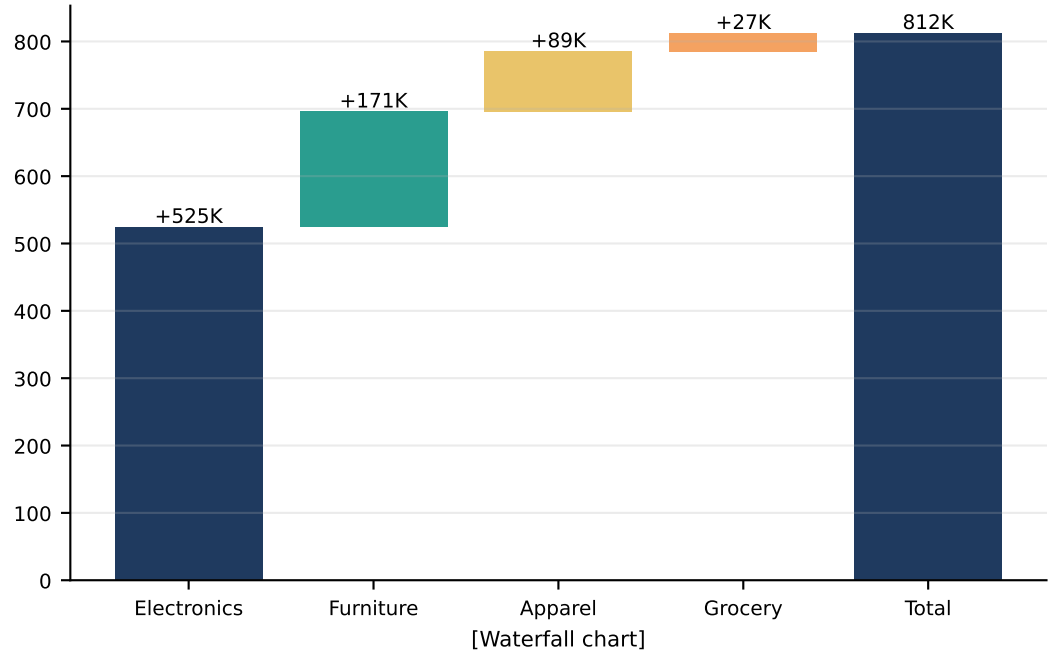

[Line chart]

All Graphs - Page 6

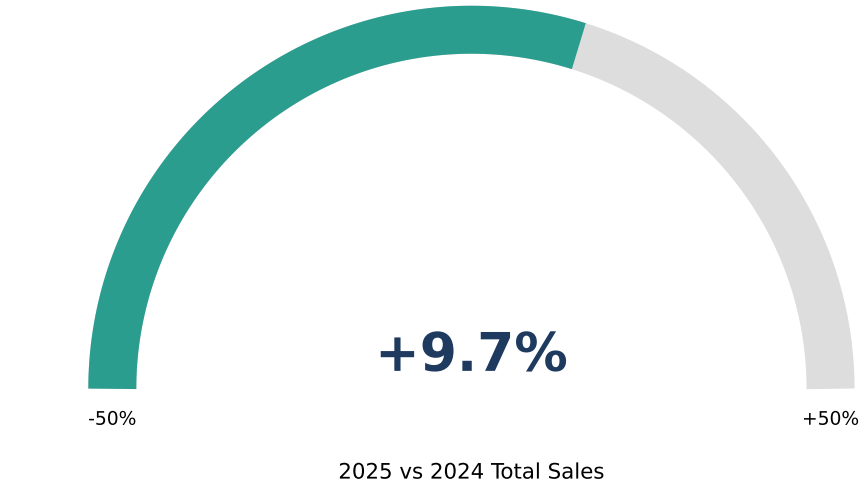

YoY Growth % by Month (2025)

Waterfall: Category Contribution to Total Sales

KPI Gauge: YoY Growth

Region Share % (sums to 100%)
